

ОВ административно-бытового корпуса

The technical drawings are organized into several sections:

- General Specifications (Общие указания):** Provides technical requirements and standards for the heating system.
- Technical Data Tables:** Lists equipment specifications, including boiler models (e.g., КОТЛЫ КОМПАКТНЫЕ), their capacities, and efficiency ratings.
- Floor Plans:** Shows the spatial distribution of the heating network across the building's levels.
- System Schematics:** Detailed diagrams of the boiler and distribution systems, including flow directions and control points.
- Boiler Room Layout (Камеры котлового помещения):** A detailed plan of the boiler room showing the placement of boilers and associated piping.
- Site Plan:** Illustrates the building's connection to the external thermal network of the settlement.
- Structural Details:** Shows the design of boiler supports and connection nodes.
- Equipment List:** A comprehensive list of all components and materials required for the system.
